
REBUTTALS

IME Review Service

Forensics: www.crashdr.webs.com

Pain: www.torontopain.webs.com

Home: www.Pain-Drs.com

The best way to win a case is to have the only expert opinion. Our service points out all of the in-accuracies in Med-Legal Reports along with supporting reference material.

Call (647-991-7246) or Email (drmazzarella@gmail.com) us today to find out more.

Our service is unique in that Dr. Jason Mazzarella has completed thousands of rebuttals, and has specific training in Crash Forensics, Accident Investigation, Accident Reconstruction, Chronic Pain, Brain Injury, Traumatic Stress, Primary Care Health, Chiropractic, Acupuncture, and Physical Therapy.

Our service includes the following:

1. File review of the opposing doctors reports, CV's and credentials.
2. Med-Legal Questionnaire Development
 1. Lists concerns with Education
 2. Lists concerns with Credentials, Training and Experience
 3. Lists errors and/or comments on report that are not supported by the most up-to-date scientific research.
 4. Lists errors in References. At time's references can be listed, but do not actually support the doctors reported opinion or conclusion.

Med-Legal Cases are won and lost by Expert Opinion. Make sure the opposing Expert is qualified, commenting within his or her scope and whose report is sustained by research.
